Progressive Coverall

In order to qualify for the final Progressive Coverall game, players must purchase a 3-, 6- or 9-face, Bingo booklet plus the Progressive Coverall game face in any quantity. New jackpots begin with \$500 and 48 called balls/numbers. In each subsequent week until the jackpot is won, half of that night's Progressive card sales are added to the jackpot, and the quantity of called balls/numbers increases by one. If a jackpot is not won, the consolation prize amount is \$160.

The current jackpot amount can be found on the Knights of Columbus Facebook page and website:
